

Key Stage 1 Art

Week beginning Monday 8<sup>th</sup> February 2021

**Bridget Riley**  
**Line and Optical Illusions**

For this Art session you will need to print off two copies of the attached black and white lined pattern (on the following page.) You will also need a pencil, a ruler, scissors and glue.

Step 1 – put one pattern page aside to use for your background.

Step 2 – using the other pattern page, create a selection of different shapes using a pencil and a ruler.

**You could use different items from around your house and draw around them to create shapes. For example, an upside down glass will give you a fantastic circle shape.**

Step 3 – carefully cut out the shapes you have created.

Step 4 – layer the shapes on to your background (the pattern page we put aside at the beginning.)

Step 5 – when happy with the position of your shapes, glue them in place.

Step 6 – Admire your magical optical illusion :-)

**We would love to see your Optical Illusions so please do send us a photo 😊**

Special thanks is given to Teacher Tools: ArtJohn for creating this simple and effective lesson and free template.
