

Key Stage 2 Art

Week beginning Monday 1st March 2021

Welcome to a lesson created by Liz at the Oak Academy

For some of the parts of this session you will need an adult to help or supervise.

For this Art session you will need:

A sketchbook (or access to plain paper)

A pencil

Glue

A4 paper (plain, coloured or patterned)

Scissors

Paint/Brushes or felt tip pens

In this lesson, you will learn about different types of paper crafts. You will learn about the Japanese art of paper folding and cutting. You will gather resources to inform your design ideas and will develop your practical skills by painting a design, which you will then add to a folding fan. You will also use a sketchbook to record your design ideas and your learning.

We would love to see your paper weaving that you create using this technique, so please do send us a photo 😊
