

Key Stage 2 Art

Week beginning Monday 25th January 2021

Welcome to a lesson created by Access Art - with special thanks to 'sketchbookspace' for their video explanation.

For this Art session you will need a piece plain paper, a pencil, an object to draw from around the house (in this video they have used an apple) and access to the internet to play the video.

This lesson has been chosen because like our previous lessons it has been designed to encourage you to slow down and focus on what you are drawing; looking at the intricate details of the objects. This technique will also help you to coordinate your drawing with what you are seeing and help you to match your drawing speed with your observing speed.

Top tip: remember to keep your sketching strokes light in pressure and to use short pencil strokes moving backwards and forwards.

We would love to see your Backwards Forwards Sketches, so please do send us a photo 😊
